Index to Volume L

Journal of Heredity, 1959

A

Adipose, A New Inherited Obesity of the Mouse, D. S. Falconer and J. H. Isaacson, 290.
Albino Frogs, 202.
Albino Mosaic in Hymenoptera, W. R. M. Mason, 73.
Allard, R. W. and W. M. Clement, Linkage in Lima Beans, 63.

Animal Genetics:

Aedes aegypti, larval pigmentation, 115.
Axolotl, fluid imbalance, 279
Buffalo, white coat color, 269.
Cattle, hydrocephalic lethal in Herefords, 143.
Dog: inheritance of breeding cycles in Basenji-Cocker Spaniel hybrids, 255.
Drosophila, counter, 75.
Fowl: exencephaly, 127; Dorking, lethal mutation, 137; irregular mosaicism, 171; twin embryos of the Guinea Fowl, 176; sex-linked dwarfism, 209.
Frogs, albino, 202.
Hymenoptera, albino, 73.
Mice: linkage map, 3; physiological adaptation, 5; variability in activity within inbred and crossbred, 6; visceral inversion and associated anomalies, 9; subspecific differences in the responses of young deermice on an elevated maze, 14; selection and inbreeding for longevity of a lethal type, 19; rates of subline divergence in highly inbred strains, 26; mutation causing neonatal jaundice, 35; hepatic fusion, a new gene in linkage group I, 40; superfetation, 71; linkage of brachypodism, 81; recessive obesity and pulmonary tumors, 99; an attempt to modify number of presacral vertebrae by transplantation of ova, 109; dominant T-allele, 140; blood-pH differences in two inbred strains, 155; mutation causing congenital clubfoot, 188; life span in inbred and hybrid, 203; tufted—a non-genetic morphological variant in mice of a polydactylous descent, 227; waddler, a new mutation, and its interaction with quivering, 238; reverse mutation in the house mouse, 248; adipose, a new inherited obesity, 290; recessive brain hernia, 265.
Mink, chromosome number, 245.
Phormia regina, new mutant and its allelic relations, 230.
Rabbit, inheritance and hair morphology of the "wuzzy" mutation, 31.
Sheep, genetic control of blood potassium concentration, 275.
Swine, multiple sire mating, 293.
Tribolium confusum, two new deleritious mutations, 85.
Turkey: mitotic chromosomes of parthenogenetic and normal, 151.

Atsmon, Dan, A Lethal Gene in the Castor Bean Plant, 302.

B

Bailey, Donald W., Rates of Subline Divergence in Highly Inbred Strains of Mice, 26.
Beckman, Lars and Per Kallstenius, Blood Groups of Estonians, 287.
Bennett, Dorothea, Brain Hernia, A New Recessive Mutation in the Mouse, 265.
Bernstein, Seldon E., *et al.*, A Mutation Causing Neonatal Jaundice in the House Mouse, 35.
Blackwell, R. L.: *et al.*, A Hydrocephalic Lethal in Hereford Cattle, 143; Corrigendum, 232.
Blood Groups of Estonians, Lars Beckman and Per Kallstenius, 287.
Blood-pH Differences in Two Inbred Strains of Mice, H. G. Wolfe, 155.
Bohman, V. R., *et al.*, Evidence of Genetic Control of Blood Potassium Concentration in Sheep, 275.

Books Reviewed:

Briquet, Raul, Jr., Genetica da Pelagem do Cavalo, 301.
Stowe, Leland, Crusoe of Lonesome Lake, 55.
Bowling, Mel, *et al.*, Genetic Factors in Physiological Adaptation, 5.
Brain Hernia, A New Recessive Mutation in the Mouse, Dorothea Bennett, 265.
Bunker, Lester E., Jr., Hepatic Fusion, A New Gene in Linkage Group I of the Mouse, 40.
Buranamanas, Prasob, and David C. Rife, Inheritance of White Coat Color in the Water Buffalo of Thailand, 269.

C

Case of Twin Embryos of the Guinea Fowl, Joseph C. Daniel, Jr., 176.
Castle, W. E., Genetica da Pelagem do Cavalo (Rev.), 301.
Chai, C. K., Life Span in Inbred and Hybrid Mice, 203.
Chapman, Dorothy B. and Katharine P. Hummel, Visceral Inversion and Associated Anomalies in the Mouse, 9.
Chlorophyll Mutant in Soybeans Provides Teaching Aid, Charles R. Weber and M. G. Weiss, 53.

Chromosome Elimination in a Trisomic of *Spinacia oleracea*, J. R. Ellis and Jules Janick, 272.
Chromosome Number in the Mink, Donald G. Humphrey and Neil Spencer, 245.
Clement, W. M. and R. W. Allard, Linkage in Lima Beans, 63.
Cloud, Joseph, No Time for Cunctation, 221.
Cobb, Estel, H., *et al.*, A Hydrocephalic Lethal in Hereford Cattle, 143.
Cock, A. G., Irregular Mosaicism in a Hen, 171.
Corbett, M. K. and J. R. Edwardson, A Macromutation in Yellow Lupine, 167.
Corrigendum, R. L. Blackwell, *et al.*, 232.
Craig, George B., Jr., and Nicholas W. Gillham, The Inheritance of Larval Pigmentation in *Aedes aegypti*, 115.
Crary, D. D. and P. B. Sawin, Inheritance and Hair Morphology of the "Wuzzy" Mutation in the Rabbit, 31.
Cytogenetics of Four Sets of Twins in Cotton, J. E. Endrizzi, 222.
Cytogenetics of *Rubus*, D. Markarian and H. P. Olmo, 131.
Cytological and Genetic Changes Induced by Vegetable Oils in *Triticum*, M. S. Swaminathan and A. T. Natarajan, 177.

D

Dahlberg, John, A Reverse Mutation in the House Mouse, 248.
Daniel, Joseph C., Jr.: A Case of Twin Embryos of the Guinea Fowl, 176; Telegony Retested, 274.
Dickie, Margaret M. and Margaret C. Green, Linkage Map of the Mouse, 3.
Downs, Wm. G., Jr., *et al.*, Genetic Factors in Physiological Adaptation, 5.
Drosophila Counter, Geoffrey Keighley and E. B. Lewis, 75.

E

Edwardson, J. R. and M. K. Corbett, A Macromutation in Yellow Lupine, 167.
Ellis, J. R. and Jules Janick, Chromosome Elimination in a Trisomic of *Spinacia oleracea*, 272.
Endrizzi, J. E., Cytogenetics of Four Sets of Twins in Cotton, 222.
Epistasis—What is it?, W. Ralph Singleton, 261.
Evidence of Genetic Control of Blood Potassium Concentration in Sheep, James F. Kidwell, *et al.*, 275.

F

Falconer, D. S. and J. H. Isaacson, Adipose, A New Inherited Obesity of the Mouse, 290.
Fowl, see *Animal Genetics*.
Fuller, John L.: and Arnold M. Mordkoff, Variability in Activity Within Inbred and Crossbred Mice, A Study in Behavior Genetics, 6; *et al.*, The inheritance of Annual Seasonal Breeding Cycles in Hybrid Basenji-Cocker Spaniel Dogs, 255.

G

Genetica da Pelagem do Cavalo, (Rev.), W. E. Castle, 301.
Genetic Factors in Physiological Adaptation, Wm. G. Downs, Jr., *et al.*, 5.
Gerstel, D. U. and L. L. Phillips, Segregation in New Allopolyploids of *Gossypium*, 103.
Gillham, Nicholas W. and George B. Craig, Jr., The Inheritance of Larval Pigmentation in *Aedes aegypti*, 115.
Green, Earl L. and Margaret C. Green, Transplantation of Ova in Mice, An Attempt to Modify the Number of Presacral Vertebrae, 109.
Green, Margaret C.: and Margaret M. Dickie Linkage Map of the Mouse, 3; and Earl L Green, Transplantation of Ova in Mice An Attempt to Modify the Number of Presacral Vertebrae, 109.

H

Hammen, Carl S., A New Mutant of *Phormia regina* and its Allelic Relations, 230.
Hardin, Garrett, Intersteller Migration and the Population Problem, 68.
Harrison, A. L. and Charles M. Rick, Inheritance of Five New Tomato Seedling Characters, 91.
Haverland, L. H., *et al.*, Evidence of Genetic Control of Blood Potassium Concentration in Sheep, 275.
Heeckt, Otto and Shigemi Honma, Interspecific Hybrid Between *Phascolus vulgaris* and *P. lunatus*, 233.
Hepatic Fusion, A New Gene in Linkage Group I of the Mouse, Lester E. Bunker, Jr., 40.
Hereditary Exencephaly in the Fowl, W. J. Mellen, 127.
Hereditary Multiple Lipomatosis, F. E. Stephens and Arnold Isaacson, 51.
Hereditary Multiple Sebaceous Cysts, F. E. Stephens, 299.
Heston, W. E. and George Vlahakis, Relationship Between Recessive Obesity and Induced Pulmonary Tumors in Mice, 99.
Hollander, W. F., The Problem of Superfetation in the Mouse, 71.
Honma, Shigemi and Otto Heeckt, Interspecific Hybrid Between *Phascolus vulgaris* and *P. lunatus*, 233.
Hough, L. Frederick and Gerald M. Weaver, Irradiation as an Aid in Fruit Variety Improvement, 59.

Human Genetics and Eugenics:

Blood groups of Estonians, 287.
Intersteller migration, 68.
Lipomatosis, multiple, 51.
Sebaceous cysts, 299.
Hummel, Katharine P. and Dorothy B. Chapman, Visceral Inversion and Associated Anomalies in the Mouse, 9.
Humphrey, Donald G. and Neil Spencer, Chromosome Number in the Mink, 245.
Humphrey, R. R., A Linked Gene Determining

the Lethality Usually Accompanying a Hereditary Fluid Imbalance in the Mexican Axolotl, 279.
Hunter, J. E., *et al.*, Evidence of Genetic Control of Blood Potassium Concentration in Sheep, 275.
Hutt, F. B., Sex-Linked Dwarfism in the Fowl, 209.
Hydrocephalic Lethal in Hereford Cattle, R. L. Blackwell, *et al.*, 143.

I

Inheritance and Hair Morphology of the "Wuzzy" Mutation in the Rabbit, D. D. Crary and P. B. Sawin, 31.
Inheritance of Annual Seasonal Breeding Cycles in Hybrid Basenji-Cocker Spaniel Dogs, J. P. Scott, *et al.*, 255.
Inheritance of Five New Tomato Seedling Characters, Charles M. Rick and A. L. Harrison, 91.
Inheritance of Larval Pigmentation in *Aedes aegypti*, George B. Craig, Jr., and Nicholas W. Gillham, 115.
Inheritance of White Coat Color in the Water Buffalo of Thailand, David C. Rife and Prasob Buranamanas, 269.
Intergeneric Hybrids Between *Hordeum jubatum* L. and *Secale cereale* L., E. B. Wagenaar, 195.
Interspecific Hybrid Between *Phaseolus vulgaris* and *P. lunatus*, Shigemi Honma and Otto Heeckt, 233.
Intersteller Migration and the Population Problem, Garrett Hardin, 68.
Irradiation as an Aid in Fruit Variety Improvement, L. Frederick Hough and Gerald M. Weaver, 59.
Irregular Mosaicism in a Hen, A. G. Cock, 171.
Isaacson, Arnold and F. E. Stephens, Hereditary Multiple Lipomatosis, 51.
Isaacson, J. H. and D. S. Falconer, Adipose, A New Inherited Obesity of the Mouse, 290.

J

Janick, Jules: *et al.*, The Trisomics of *Spinacia oleracea*, 47; and J. R. Ellis, Chromosome Elimination in a Trisomic of *Spinacia oleracea*, 272.
Johnson, T., Kenneth William Neatby, (Obit.), 125.

K

Kallstenius, Per and Lars Beckman, Blood Groups of Estonians, 287.
Kamra, Om P. and R. A. Nilan, Multi-Ovary in Barley, 159.
Keighley, Geoffrey and E. B. Lewis, *Drosophila* Counter, 75.

Mitotic Chromosomes of Parthenogenetic and Normal Turkeys, H. K. Poole, 151.
Mordkoff, Arnold M. and John L. Fuller, Variability in Activity Within Inbred and Crossbred Mice, A Study in Behavior Genetics, 6.
Multi-Ovary in Barley, Om P. Kamra and R. A. Nilan, 159.
Multiple Sire Mating in Swine. I. General Considerations, L. J. Sumption, *et al.*, 293.
Mutation Causing Congenital Clubfoot in the House Mouse, M. W. Robins, 188.
Mutation Causing Neonatal Jaundice in the House Mouse, Leroy C. Stevens, *et al.*, 35.

N

Natarajan, A. T. and M. S. Swaminathan, Cytological and Genetic Changes Induced by Vegetable Oils in *Triticum*, 177.
Neatby, Kenneth William, (Obit.), T. Johnson, 125.
New Dominant T-Allele in the House Mouse, Mary F. Lyon, 140.
New Mutant of *Phormia regina* and Its Allelic Relations, Carl S. Hammen, 230.
Nilan, R. A. and Om P. Kamra, Multi-Ovary in Barley, 159.
No Time for Cunctation, Joseph Cloud, 221.

O-P

Olmo, H. P. and D. Markarian, Cytogenetics of *Rubus*, 131.
Pennebaker, G. B., *et al.*, Genetic Factors in Physiological Adaptation, 5.
Pfahler, P. L., *et al.*, The Trisomics of *Spinacia oleracea*, 47.
Phillips, L. L. and D. U. Gerstel, Segregation in New Allopolyploids of *Gossypium*, 103.

Plant Genetics:

Barley: multi-ovary, 159; intergeneric barley-rye hybrids, 195.
Bean, lima: linkage, 63; interspecific hybrid between lima and snap, 233.
Bean, castor: lethal gene, 302.
Blackberry, reproductive behavior, 131.
Carnation: X-ray induced mutants, 78.
Cotton: leaf shape segregation in hexaploids, 103; cytogenetics of four sets of twins, 222.
Hordeum jubatum: intergeneric hybrids between *Hordeum jubatum* L. and *Secale cereale* L., 195.
Lupine: macromutation, 167.
Peach: irradiated mutants, 59.
Phaseolus vulgaris: interspecific hybrid between *Phaseolus vulgaris* and *P. lunatus*, 233.
Phaseolus lunatus: interspecific hybrid between *Phaseolus vulgaris* and *P. lunatus*, 233.
Rubus, reproductive behavior, 131.
Rye: Intergeneric rye-barley hybrids, 195.
Secale cereale: intergeneric hybrids between *Hordeum jabatum* L. and *Secale cereale* L., 195.
Soybean, chlorophyll mutant provides teaching aid, 53.
Spinach: trisomics, 47; chromosome elimination in a trisomic, 272.
Tomato: five new seedling characters, 91.
Triticum: cytological and genetic changes induced by vegetable oils, 177.
